

## Remember to put sunscreen on these often overlooked places

### Top of the head/hair line

Or better yet, wear a hat.

### Backs of the ears

Try a sunscreen stick to get spots like your face and the backs of your ears.

### Near the swimsuit/clothing line

Make sure your sunscreen and your clothes or swimsuit overlap to protect your skin.

### Tops of the feet/back of hands

These places are often in direct line of the sun.
